

Outbreak Update

There are no new cases at Maxville Manor as of January 20th at 11am. The current status of the outbreak is as follows:

| | Staff | Residents | Essential Caregivers (family or loved ones) |
|---|-------|-----------|---|
| Number of people with COVID at Maxville Manor | 0 | 1 | 0 |

Recordings of Vaccine Distribution Update with Long Term Care Homes

General Rick Hillier (retired), Chair of Ontario’s COVID-19 Vaccine Distribution Task Force, and Merrilee Fullerton, Minister of Long-Term Care, recently hosted online information sessions that outlined the plans for vaccine distribution to LTC homes across the province, and what you need to do to prepare as a long-term care home operator or clinician. Attendees had an opportunity to ask questions about the vaccines and the vaccination roll-out. Please see below for links to the recordings.
