

Outbreak Update

We have 1 confirmed resident case in F/G unit. We are continuing to do everything we can to keep our residents, staff and caregivers safe and stop the spread of the virus.

Next COVID Swabbing Day

The next COVID Swabbing Day for essential caregivers will be on **Tuesday, January 12 from 10:00am-noon** in the library.

Vaccination Update

Please be advised we are sending all information we have about the vaccinations as we receive it. We understand there are lots of questions, but please know we are sharing as much information with you as we have.

Phizer Vaccination Roll-out

The Phizer vaccine is coming to Maxville Manor, as early as next Wednesday. As an essential caregiver, if you have not let Kristie know if you are or aren't taking the vaccine, please do so as soon as possible so we can get an accurate picture of numbers. Her email address is kcampbell@maxvillemanor.ca. If you do not have access to a fax machine to send your consent form, please take a picture and send to Kristie.

Also, please ensure that you have let your unit manager know about vaccine preferences for each resident if you haven't done so already.

Finally, you will need to have a negative COVID test done within 1 week in order to come in to the Manor to get the vaccine.

Social Media

Exciting news. We are in the process of getting Maxville Manor on social media. We will send you the links to our social media pages when they are up and running. We will be sharing photos and stories, and we ask that POAs fill out the consent form attached to this email in order for us to share your loved one's photos. If you could fill out the consent form and send it to Kristie @ kcampbell@maxvillemanor.ca that would be much appreciated. We look forward to sharing more with you in the near future!

Thank you!
