

Maxville Manor Redevelopment Project: Approved!

It has happened! This afternoon, Minister Fullerton just announced the approval of the Maxville Manor redevelopment project. This means that it has been allocated 38 new LTC beds and will be able to upgrade its current 122 beds. The project will result in a 160-bed home through the construction of a new part of its building as part of a campus of care. This will help to ensure that we continue to provide high quality care and to meet the needs of this community.
