

***Infection Prevention and Control***

*Resident Baths*

The resident baths twice weekly can start immediately.

*Window Visits from Designated Essential Caregivers*

Due to the declaration of emergency & stay at home order effective April 8<sup>th</sup> we will offer window visits in addition to the present indoor visits to only designated essential caregivers. General visitors are not permitted at this point. A window visit consists of one caregiver outside a closed window under the canopy to the right of the front entrance. Bring your cell phone and we will utilize our cell phone on the inside for you to communicate with your loved one. Upon booking your time we will confirm date, time, and cell number. Appointments will be available daily 9:30 – 11:30, 1:00 – 4:30 and arrangements can be made for an evening if required. Visits will consist of a maximum 30 minutes. Please wear a mask as we do have staff, residents, caregivers coming and going from the front entrance area. We ask for you to wipe the chair with supplied sanitized wipes at departure. If there is any designated essential care giver that prefers a window visit, please call Dina at ext. 227 or email [dmurraymacdonald@maxvillemanor.ca](mailto:dmurraymacdonald@maxvillemanor.ca) at least 2 days prior to date of visit.

*Residents Infection Prevention and Control Protocols*

- Residents are to stay within their respective units and not congregate in town square.
- Residents can visit with one another if the resident is from the same unit if they practice proper hand hygiene, remain 2m apart, and wear a mask and face shield when possible.
- Residents are to wear mask and face shield when possible in all common areas or when visiting another resident in their unit. When visiting with other residents they must also practice proper hand hygiene and remain.
- When going outdoors, residents are to wear a mask and face shield when possible, the gown is not required.

*Caregiver Infection Prevention and Control Protocols*

- Essential Caregivers are still required to wear the surgical mask and face shields throughout the Manor.
- Essential Caregivers can visit with the resident in their unit in a common area, in the residents room, or outside when going for walks.

*Ordering of Food*

Residents are now able to order in food from restaurants.

*Next COVID Testing Date*

The next date for COVID swabbing is Tuesday, April 27 from 10:00am-noon as a drive thru at the Manor.
